To whom it may concern:

Please accept this letter of introduction for Joe Hozjan and his colleagues at Voice Path Convergence.

Our company does wireless data communications in warehouses and manufacturing facilities - both on the software and hardware side, but do not do installations, preferring to contract it out to professionals.

I have had the pleasure of working with Voice Path on three projects in the past and was so impressed by their work on the first job that for all intents and purposes, I no longer need to speak to anyone else.

The level of quality of their work is unprecedented in my experience of 15 years in the industry, and I will continue to use their services into the foreseeable future. They use only the best materials and the best practices and have made every project a pleasure. The end users on each project have come back with nothing but the highest praise for their professionalism and can-do attitude.

I heartily recommend Voice Path Convergence for any project, and I would welcome the opportunity to discuss them with you at any time. Feel free to call me direct should you have any questions.

Sincerely;

A handwritten signature in black ink, appearing to read 'Bill Matisz', with a long horizontal flourish extending to the right.

Bill Matisz,
Senior Account Manager
